

BOXMAX REFRIGERATED

locker

MAIN FEATURES

-  10" Monitor
-  Payments system setup
-  Easy-to-set modular cabinets
-  Refrigerated

PERFECT FOR SALES AND AS A PICKUP POINT

Boxmax is the accessory that allows you to add a versatile space to your automated store suitable for both sales and as a pickup point.

It is managed from the main machine's console and allows the opening of the dedicated door for each individual customer. It is the perfect solution for large-sized products as well.

REAL-TIME DATA SERVICE

Magex provides a vending machine real-time management service, thanks to our web-based interface accessible from virtually any kind of device.

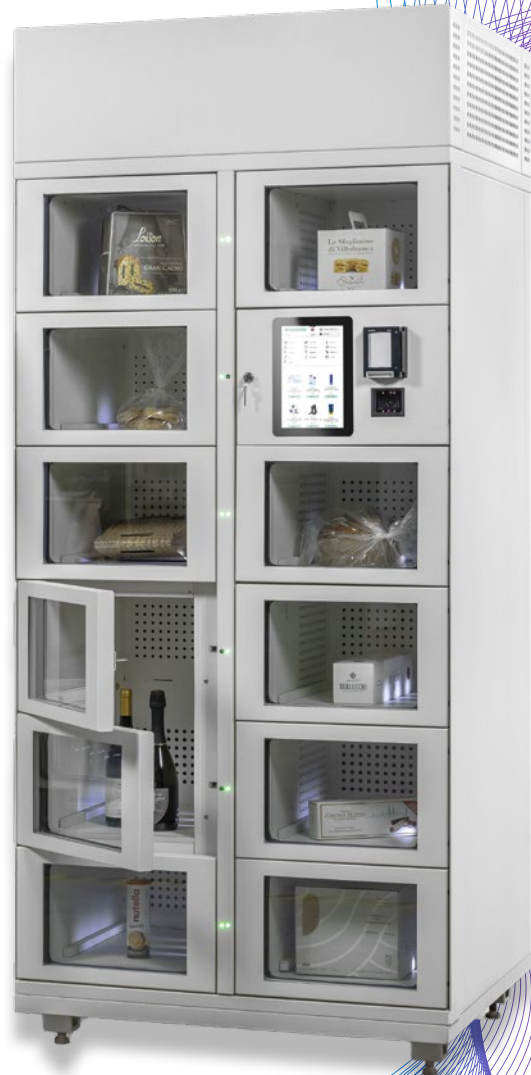

You can check real-time selling statistics, stock status, actual stock for every currency denomination.

You will be able to monitor the internal temperature and visualize it in a chart.

W - 994
H - 2287
D - 883

10" TOUCH SCREEN

Thanks to the 10" touch screen, customers can view and choose products directly from the screen, with the option to read the product description and ingredients. Additionally, for each product, there is the possibility to add up to 4 photos and a video.

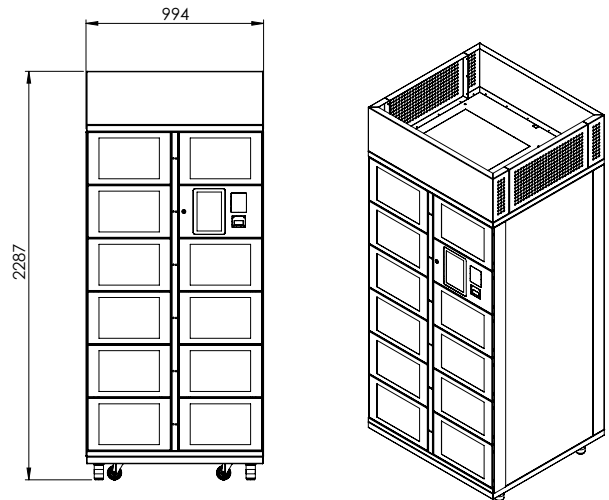

CREATE YOUR SPACE

Make the most of modularity and customize your Boxmax: independently configure shelves and hatches to create a larger compartment.

SATELLITE MODULE

Boxmax is available both as a standalone machine (called Master) and as a Satellite Module to be attached to your Magex vending machine to expand its functionalities.

An entire room can be transformed into an automatic shop by combining Master dispensers and their Satellite Modules.
