### REAL-TIME DATA SERVICE

Magex provides a vending machine real-time management service, thanks to our web-based interface accessible from virtually any kind of device.

You can check real-time selling statistics, stock status, actual stock for every currency denomination.

You will be able to monitor the internal temperature and visualize it in a chart.

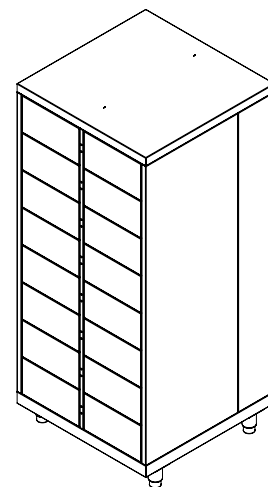

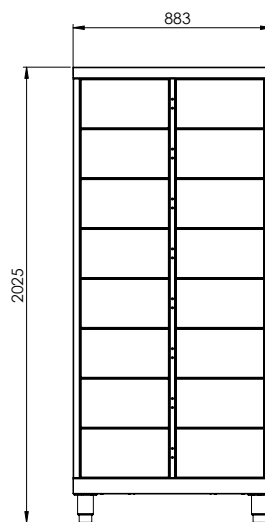

### 10" TOUCH SCREEN

Thanks to the 10" touch screen, customers can view and choose products directly from the screen, with the option to read the product description and ingredients. Additionally, for each product, there is the possibility to add up to 4 photos and a video.

## CREATE YOUR SPACE
